OUR GOAL

Drawing **inspiration from the iconic artworks of Piet Mondrian** and the pioneering Bauhaus movement, this collection introduces three distinct levels of aspect and carpet construction. **Mondrian 100 presents a singular and dynamic base**, while **Mondrian 200 incorporates delicate lines of colored accents**. **Mondrian 300 culminates the collection with vibrant squares of full color**, enriching the geometric interplay and introducing a thicker pile product to **enhance the flooring's dynamic composition**, thereby offering a variety of experiences.

COMPOSITION POWER

‘Everything is expressed through relationship. Color can exist only through other colors, dimension through other dimensions, position through other positions that oppose them. That is why I regard relationship as the principal thing.’

- Piet Mondrian

The rhythm and relationship of color and style are exemplified in three patterns inspired by Mondrian's classic works. Balance in composition and color is essential in design. This collection honors the core principles of the De Stijl movement, offering a variety of patterns for your creative use.
